Jackson, MS – December 16, 2021 - The Women's Foundation of Mississippi, a public grantmaking foundation focused on funding programs that support women and girls across the state, awarded more than \$680,000 in grants this year. Today, they announced 2021 annual grant awards totaling \$360,000 for eleven Mississippi-based programs. The investments fall in four of the priority areas identified by the Foundation: Better Futures: Two-Generation approach, Two-Generation Community College, Healthy Women, and Access to Opportunity: Community College. Earlier this year, the Foundation awarded more than \$280,000 in a new focus area: Creating a Healthcare Workforce. [These grants with seven colleges across our state](#) will support nursing and other healthcare students as they work to earn their degrees and enter the workforce on time. This critical investment comes as the state and nation faces a nursing shortage.
