

Hosted by Teen Health Mississippi and our partners, the Mobilizing Youth Summit (MYSummit), is a three-day advocacy conference for young people aspiring to create change in their communities. Through inclusive dialogue, skill-building, and collaboration, we aim to amplify the voices of young advocates, inspire bold action in the present moment, and cultivate a future where equity, justice, and sustainability thrive. Please consider partnering with us to increase the pipeline of future leaders who will impact communities across the state.
